REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The information regarding the Agapanthus plant cultivar Blue Heaven was available to persons of ordinary skill in the art, in the application number 990782 filed in the European Community as early as May 28, 1999. The application was published on August 15, 1999 and the grant number 9477 was published in August 15, 2002. These printed publications were accessible to the public more than one year prior to filing of the instant application. A publication relied upon as prior art under 35 USC 102(b) must be enabling. The text of the relied upon publications standing alone would not enable one skilled in the art to practice the claimed invention.

When the claim is drawn to a plant, the reference, combined with knowledge in the prior art, must enable one of the ordinary skilled in the art to reproduce the plant. *In re Le Grice*, 301 F.2d 929, 133 USPQ 365 (CCPA 1962). If one skilled in the art could reproduce the plant from a publicly available source, then a publication describing the plant would have an enabling disclosure.

Applicant states on the specification that No plants of 'BLUE HEAVEN' have been sold or otherwise distributed from the Inventor's nursery prior to May 13, 2003.

The publications number 990782 and 9477 cannot be enabled because the disclosed cultivar has not been propagated from publicly available materials.

The specification provides a complete botanical description of the claimed plant. The completeness of the description is sufficient to distinguish this new plant from the prior art as well it is sufficient to distinguish future application from this observed plant.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
